Last evening at St. Paul's church a large gathering assembled to take part in what is known as a "promoters' reception" of the League of the Sacred Heart. In addition to its officers the league contains promoters who, by word and example, govern the body of the society, which is divided into bands of thirteen members. in St. Paul's center there are forty-three promoters, of which thirty-nine are active. The Hartford Courant thinks that Archbishop Chappelle does not go to Manila on a mission foredobmed to failure. It says: "It is not at all impossible that the mission of Archbishop Chappelle to the Philippines as personal representative and delegate of the Pone, may accomplish more in the sonal representative and delegate of the Pope, may accomplish more in the way of tranquilizing the natives and reconciling them to the new order of things than the winning of many paddy-field skirmishes. In spite of his French name and blood, yet people who knew the Archbishop of New Orleans when he was as yet only Father Chappelle of St. Matthews, Washington, say that there's no discount on his Americanism.

The fact that Pope Leo NIII has sent a gift to the wife of the French republic has caused any amount of gossip. The incident is, however, without grave significance. This good lady, who is in no way responsible for matters political in France, has been known to His Holiness since the days when he was Nuncio Apostolic in Brussels, and has always been a zealous Catholic, and the gift of His Holiness had no political significance whatever.
